VI. Escrow - General Guidelines:

A. ESCROW

“Escrow” means any transaction wherein any property, money, written instrument or evidence of title or possession to real or personal property or other thing of value is delivered with or without transfer of legal or equitable title, or both, and irrespective of whether a debtor/creditor relationship is created, to a person not otherwise having any rights, title or interest therein in connection with the sale, transfer, encumbrance or lease of real or personal property, to be delivered or redelivered by that person upon the contingent happening or non-happening of a specified event or performance or nonperformance of a prescribed act, when it is then to be delivered by such person to a grantee, grantor, promisor, promisee, obligee, obligor, bailee, bailor, or a designated agent or employee or any one of them. Escrow includes a subdivision trust (A.R.S. §6-801, as amended).

B. COMPUTATION FROM BASIC RATE

1. There shall be a basic escrow rate charged for all residential and commercial property escrow transactions, which rate shall vary with the "fair value" of the real property involved in the transaction. The basic escrow rates are set forth on the rate schedule attached as Exhibit A.
2. The escrow rate in commercial and industrial real property transactions shall also be computed from the basic escrow rate as described in the summary account and rate schedule sections of this escrow rate filing. The escrow rate shall be rounded up if the rate calculates with cents instead of a round dollar figure.
3. Special escrow rates are made applicable to escrow transactions, which involve national account clients, subdividers, builders and developers of residential and commercial real properties. Rates applicable to these category escrow transactions are based on "fair value" as defined herein and as more fully described in the pertinent summary account section.
4. Commercial and industrial subdividers, builders and developers shall be charged an escrow rate based on the basic escrow rate and expressed as a percentage thereof.
5. The rates applicable to other categories of escrow transactions, including those where the special rates are applicable, are similarly described in the summary account section and attached to the rate schedule.

C. FAIR VALUE

"Fair Value" shall be construed as the full value of the property, including all encumbrances. Where a sale is not involved, the fair value shall be determined from all available information; i.e., amount of encumbrances, assessed value, and the like. In no event shall the fair value be less than the sum of the unpaid principal balance of the mortgages and/or contracts to which the property is subject. Additions to loan balance incurred by the buyer, including, but not limited to, MIP premiums need not be included in the unpaid principal balance for the purpose of determining fair value.

D. WORK CHARGE

When a transaction requires extra time and attention, there will be a charge of \$100.00 per hour, per non-lawyer employee, for such additional or non-routine work. Attorneys' fees, if necessary, will be billed at a higher rate. If such charges are made, the deposit of final funds and the signing of final documents or the acceptance of the work performed will constitute approval of the charges.
